What you will need:

- Paper plate
- String
- Scissors
- Glue
- Paper
- Colouring pens or pencils

Make your own paper plate spider web and spider craft

To start with you need to grab your paper plate and cut the middle out so you are left with a ring. Next you need to go round the inner edge of the ring and poke hold around the edge, this is so you can thread the string through the holes to create the spider web. When you have finished its time to create your spider, to do this you will need to draw your spider shape on some paper and colour it in, then use some scissors to cut it out and then place it on your web

What you will need:

- Empty Bottles
- Paper
- Scissors
- Glue
- Ball

Make your own spooky skittles game

To start with you need to find 6 empty bottles and take the labels of them. Once you have done this you can begin to decorate them to make them spooky, to do this on some paper draw some eyes and colour them black and some spooky mouths to create the ghost faces. You will need to do enough for all your bottles, you can then stick they eyes and mouths on the bottles to create your spooky ghost skittles. Finally, you need to set them up and you are ready to play your own game of spooky bowling.
